The Global Remittance Challenge

Dependences

Over **800 million** individuals globally rely on remittances for basic needs, education, healthcare, and more.

Volume

Migrant workers sent over **\$626 billion** to developing countries in 2022.

Unreliability

Unpredictable remittance delays can stretch for weeks, causing anxiety and uncertainty for families waiting for funds.

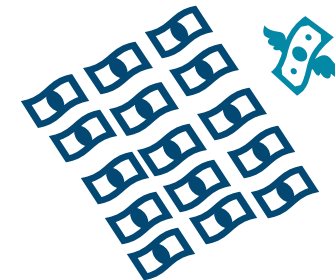

High Costs & Losses

Shockingly, around **\$37 billion** was lost to transaction fees and unfavourable exchange rates.

The average remittance cost stood at a significant **6.25%**.

Remittance dependent
vs Our population

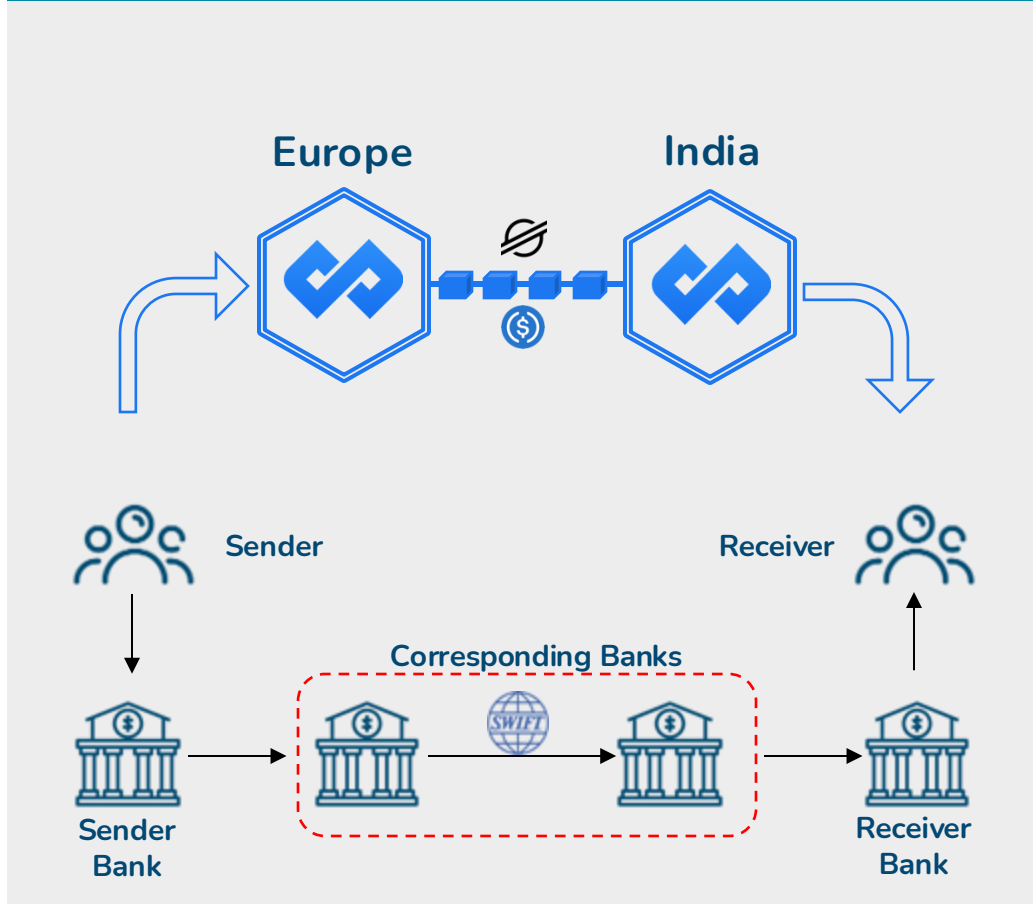

Transaction fee
vs Transaction volume

"The United Nations aims to reduce transaction costs to less than 3% by 2030 (SDG 10.c)."

This global challenge is not limited to finances but affects countless dreams and aspirations.

PROBLEM

Our Solution: Bridging Borders with Blockchain

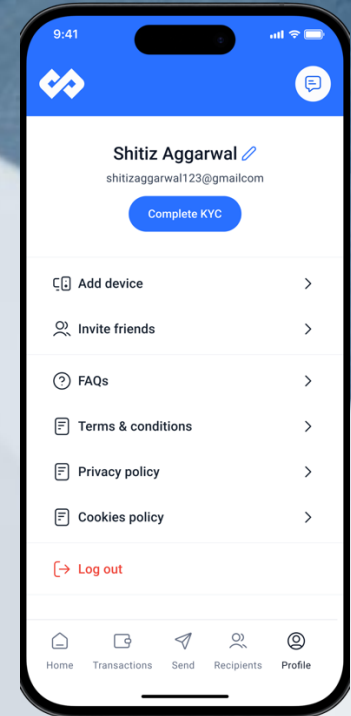

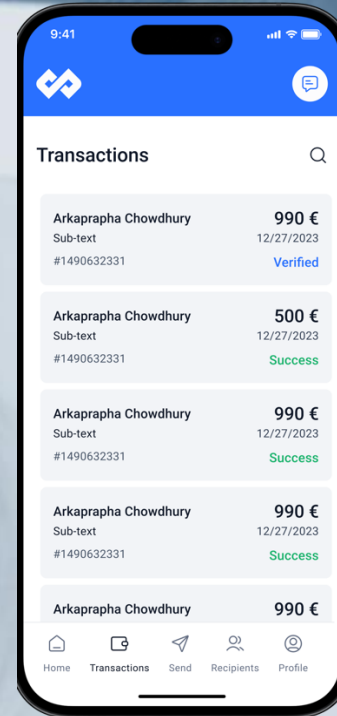

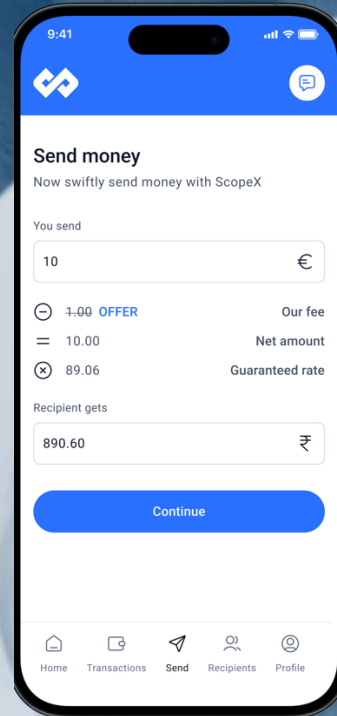

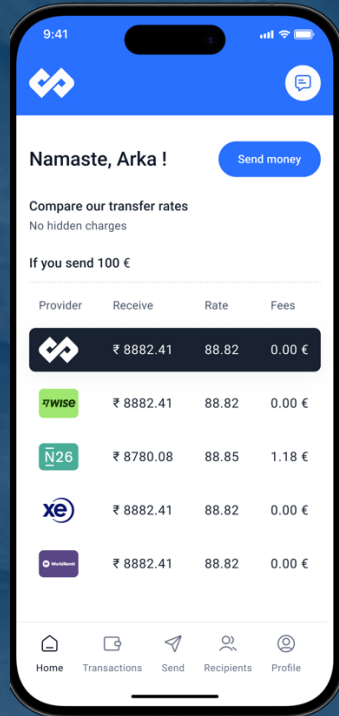

We harness the power of Stellar blockchain technology to revolutionize global remittances.

All-in-One Platform: From currency conversion to non-custodial wallets, we handle it all. Users experience the familiarity of traditional remittance services but with the efficiency and transparency of blockchain.

Empowering the Masses: Integration of top-tier security of Passkey as encryption measures, eliminating concerns of key loss or unauthorized asset transfers. Moving web2 users to web3.

Cost-efficiency and Speed: Transfers are executed at **no-costs** in minutes, a magnitude faster than legacy providers.

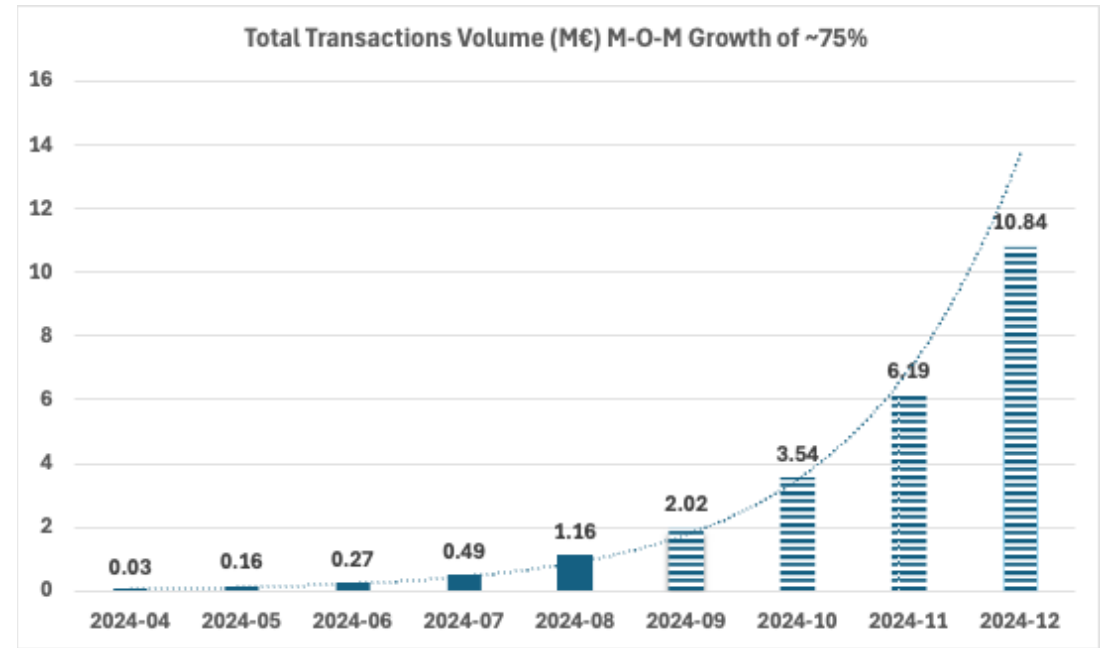

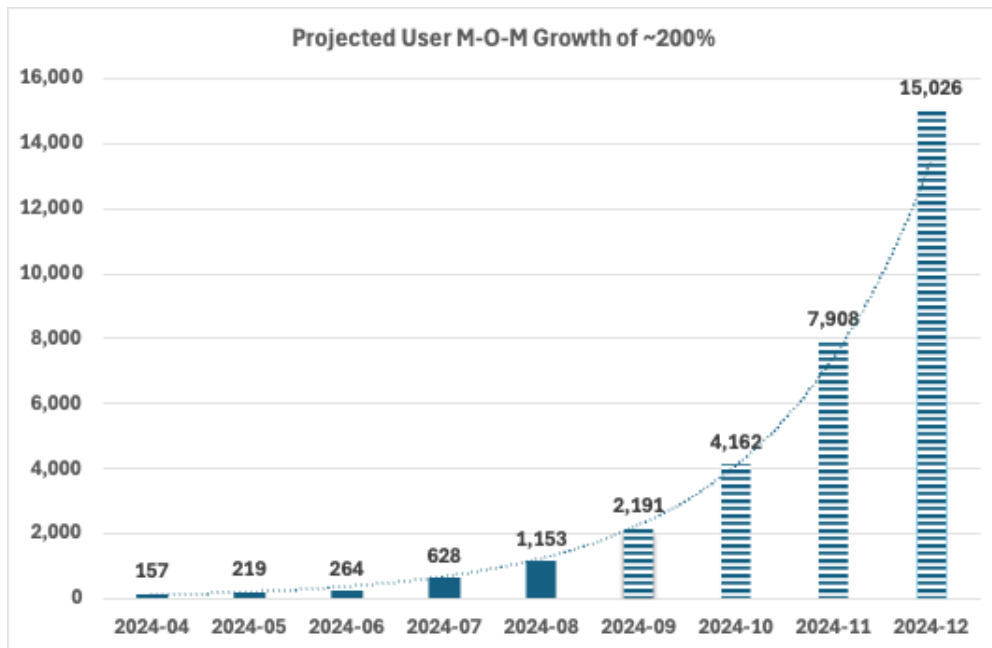

The Product

Growing with a rapid pace

Total Onboarded Users: 1.5k+

Total Transaction Volume: 1.5M€+
